Core Capabilities: Product strategy, UX/UI, prototyping, automation, AI-assisted development, creative direction

RELEVANT EXPERIENCE

HI-VIBE — Aug 2026 - Present
Brand Integrator | Contract | Remote

- Built HI-VIBE's Shopify website with substantial custom Liquid code, product configuration, page design, and original video production and editing.
- Developed a complete, testable Portal member app supporting guided program content, journaling, community, and personalized access.
- Connected founder concepts with customer journeys, creative assets, and email experiences; performed QA and troubleshooting across the digital experience.

INDEPENDENT/FREELANCE — Feb 2010 - Present
Creative Technologist & Designer | Freelance

- Design and build websites, applications, interactive experiences, and creative production tools from concept through implementation.
- Translate customer and business needs into product workflows, interface designs, and working systems.

ADDITIONAL EXPERIENCE

LIFE CHANGE CHURCH — Mar 2023 - Dec 2025
Creative Pastor & Event Lead | Milford, OH

- Led creative direction and technical production across services, digital content, stage environments, lighting, and screen media.
- Directed multidisciplinary volunteer teams and developed media workflows, training, and onboarding for recurring services and major events.

TRUE LIFE COMMUITY CHURCH — Feb 2019 - Feb 2023
Family Life / Associate Pastor | Troy, OH

- Produced promotional and recap media, stage designs, and live event experiences; coordinated AV infrastructure, vendors, and technical execution.

TYLER WOODRUFF

CREATIVE TECHNOLOGIST

SELECTED PROJECTS

ELITE HOME SOURCES

Product strategy / UX / Business workflow development

- Designed and built a service-business website and connected workflows spanning appointment requests, scheduling, customer communication, crew coordination, billing, and follow-up

3D SPORTS DISPLAYS

Interactive web development / 3D product customization

- Built an interactive website and live 3D football-display configurator so customers can personalize player names, numbers, colors, sleeves, and lettering. Collaborated on custom product design and physical 3D printing.

MINISTRY LINKER

Product strategy / UX / Marketplace development

- Designed and developed a platform connecting churches with speakers and ministry professionals through discovery, profiles, onboarding, account flows, and payment integrations.

KINGDOM CONFERENCE

Creative direction / Original video / Live experience

- Created original videos and built the overall multi-day live experience across visual identity, stage and lighting design, screen content, and technical production.

RIVER OF LIFE

Desktop application / Audio & video production workflows

- Built a local-first lyric-video production app connecting timing and review tools, audio processing, library management, and video export. Packaged and tested the macOS application.

EDUCATION & TRAINING

- Brown Mackie College - Audio & Video Production
- Pastoral Leadership Institute - Leadership & Communication
